

2. Printing "Hello World" in Java

#code

```
public class HelloWorld {  
  
    public static void main(String[] args) {  
        System.out.println("Hello World!");  
    }  
}
```

- ① Public :- accessible from other classes.
- ② Static :- can be called without creating an object.
- ③ Void :- main method does not return any value.
- ④ Main :- entry point of the program.
- ⑤ String[] args :- array of strings passed as command-line arguments.

① System.out :- Standard Output Stream.

② println :- method to print a String with a newline.

③ "Hello World" :- String to be printed.
